

# That's Me

- Greg Maxwell
- CELT, libtheora
  - other infrastructure for unencumbered media as required
- At FOMS I hope to increase awareness of the projects I work on and learn about issues other people are having that I can help with

# Project Activity

- Theora:
  - Temporal RDO
  - Codebook optimization
  - Encoder algorithmic performance improvements
- CELT:
  - IETF standardization
  - General tuning
  - Silk integration

# Project Challenges

- Hours in the day / Speed of light
- More active testers and developers
- Getting listeners for listening testing is a challenge

# Next Steps

- Libtheora:
  - libtheora 1.2 release
- CELT:
  - Final codec features
  - Bitstream finalization
  - IETF standardization
