

That's Me

- I'm Thomas Vander Stichele
- I work on Flumotion
- I'm interested in FOMS for
 - WebM support
 - multibitrate, chunking
 - live captioning/metadata

Flumotion: Activity

- Project aim:
 - streaming server
 - open video format support
- Features:
 - distributed
 - multi-format

Flumotion: Challenges

- WebM multibitrate
 - no standard
 - anyone working on it ?
- Subtitles
 - we extract from DVB and SDI
 - what format should we support ?
 - inband or out of band ?

Flumotion: Next Steps

- Agree and prototype a multibitrate webm implementation
- Agree and prototype captioning support for live streaming
